PREFACE.

THE *raison d'être* of this work on the Tea Companies of India and Ceylon arises from the fact that about £35,000,000 of British Capital is invested in Tea growing in these two countries, and the following approximate figures further demonstrate the magnitude and importance of the enterprise:—

1895.	Acres under Tea.	Acres in bearing.	Labour employed.	Crop produced. lbs.
Indian	450,000	375,000	600,000	135,500,000
Ceylon	305,000	262,000	290,000	98,000,000
	<u>755,000</u>	<u>637,000</u>	<u>890,000</u>	<u>233,500,000</u>

In the particulars of Companies mentioned in this book, one formula has been kept to as much as possible. In most cases only results up to the end of 1895 can be given, as the Annual Reports of Tea Companies are not, and cannot well be issued, before, say, May-July in the following year.

The present volume deals with the history of each Company for an extended period, gives the *personnel*, and from additional data can be gathered the policy adopted as to building up Reserve Funds, writing off amounts for depreciation out of profits, &c., &c.

The following is a summary of the capitalisation and of the working results of the year 1895 of 56 Indian Tea Companies, which may be said to be in *full working order*, and consequently their aggregate figures have a value as establishing some sort of a standard:—

Number of Companies.	Extent of Cultivation. Acres.	Paid-up Capital involved and Debentures subscribed.	Cost to Company per acre.	Crop produced. lbs.	Av. lbs. per acre.	Total Profit earned. £	Profit per lb. of Tea.	Profit on Capital employed.
56	152,547	£6,907,000	£45	58,476,182	425	538,349	2·21d.	£7·15·7 %

A similar representative table cannot be given for Ceylon, as so many of the Companies are interested in other products besides tea.

Satisfactory features, from an investor's point of view, concerning Tea Companies, are—

- (1) That though so numerous, the Companies have been seldom saddled with the modern style of extravagant promotion expenses.
- (2) That with scarcely an exception, the Companies are controlled and directed by business men, either with a practical knowledge of Tea planting, or connected in some manner or other with the Trade. It is largely in consequence of this that in recent years we have had economies in working and concentration of management. The Industry, too, has benefited from greater facilities of transport and reduced freight rates.
- (3) That it is the custom of the majority of Companies to place very full and lucid yearly accounts before Shareholders.

Regarding the recent developments and present position of the Tea Trade, the following table shows how what may be termed British-grown tea has during the last 30 years displaced former sources of supply. For 1896, the home consumption of British-grown tea has been 89 per cent. and that of China and other teas only 11 per cent., to contrast with a consumption in 1868 of but 7 per cent. of British-grown tea and 93 per cent. of China and other tea.

In regard to the future of the industry, two features present themselves for consideration:—

First.—It may be taken that there is a natural average increase in the consumption of tea in this country to the extent of from 4,000,000 to 5,000,000 lbs. per annum, and

Secondly.—That markets outside the United Kingdom are continually expanding in the use of Indian and Ceylon Tea.

The undersigned have sought as far as possible to secure information first hand from the secretaries of Companies, and take this opportunity to thank the gentlemen who have so obligingly furnished the facts that are given in the volume now presented.

HISTORY.—The Prospectus was issued on the 1st November, 1892, and stated that the Company was formed to take over the Tea Plantations, Allynugger and Chatlapore, and also to purchase other Tea properties in India should opportunities offer. The Allynugger Plantation was

estimated to comprise 1,401 acres, of which 527 were then under Tea; the Chatlapore Plantation was estimated to comprise 2,943 acres of which 697 were at that time planted up. In 1895 the Company took over some 2,000 acres of land adjoining the Allynugger property, this grant of land being now known as the South Allynugger Estate. All the properties are held direct from the Government, partly under a permanent heritable and transferable grant under the 30 years' rules, and partly under renewable pottahs or leases for 20 years.

SITUATION AND AREA.—The properties are in the Sylhet District of the Province of Assam. According to the last report the area of the Company's Estates now stands:—

ALLYNUGGER ...	1,401 acres of which	555 acres are planted.
SOUTH ALLYNUGGER	2,003 " "	245 " "
CHATLAPORE ...	2,943 " "	782 " "

Total 6,347 acres, of which 1,582 acres are planted.

HISTORY.—This Company was formed in 1839 with an authorised Capital of £500,000 in 10,000 shares of £50 each; of these 9,358 shares were issued and £20 was paid on each. The Company at that time became possessed of large grants of land from the Government, a small portion of which was then under tea cultivation. In 1843 the first dividend was distributed, and by 1853 the cultivated area had been increased to 2,000 acres. By 1860 4,000 acres were under plant, and machinery was first started in some of the processes of manufacture. The Management of the Company was re-organised about 1866, and dividends have been paid annually since that time (excepting the years

1867 to 1869), ranging from 6% up to 35% in the year 1877. In 1876 £20 of the £30 liability remaining on the shares was expunged, and the other £10 was cancelled in 1888, the shares now ranking as fully paid. In 1876 there were 250 shareholders, compared with 750 at the present time.

SITUATION AND AREA.—The Estates are situated in the Sibsagor District of Assam. There are 15 gardens, varying in extent from 404 acres up to 1,488 acres, under tea. There are large reserves of land suitable for planting up, and it is the policy of the Board to gradually extend the cultivated area out of Revenue. When the last report was issued there were 10,009 acres under tea cultivation out of 51,000 held by the Company.

RESULTS AND DIVIDENDS.—The following table shows the workings of the Company during the last six seasons :—

Year.	Acres in bearing.	Crop, Sale weight lbs.	Av. lbs. per acre.	Average cost per lb.	Average per lb. realised.	Total Profit from all sources.	Dividend.	Remarks.
1890	7,827	2,712,274	349	9'90d.	11'28d.	£19,775	10	
1891	8,347	3,049,606	369	8'57d.	9'04d.	£10,575	6	
1892	8,236	2,692,179	330	9'91d.	11'38d.	£16,733	9	
1893	8,550	3,027,167	360	9'39d.	11'09d.	£25,573	12	£2,763 to Reserve
1894	8,870	3,251,127	368	9d.	12'55d.	£48,339	20	£10,000 to Reserve
1895	9,319	3,225,189	351	9'60d.	12'33d.	£36,743	20	

The nett profit is calculated after expenses on new cultivation have been debited against Revenue. In the six years embraced by the above table these expenses amounted to £18,682.

An interim dividend of 5% on account of season 1896 was paid in January this year (1897).

ACCOUNTS are made up annually to 31st December, and submitted, with the Directors' report, in the June following, when the final dividend is announced to be paid on the 1st or 2nd July. An interim dividend is usually paid in January.

DIRECTORS' QUALIFICATION.—25 shares.

VOTING POWER.—Shareholders must have been registered 12 calendar months. 5 to 19 shares 1 vote, 20 to 49 shares 2 votes, 50 to 99 shares 3 votes, 100 shares and over 4 votes, the maximum.

TRANSFER FORM.—Ordinary ; Fee, 2s. 6d. per deed.

ASSAM-DOOARS TEA COMPANY, LIMITED.

Formed December, 1894.

CAPITAL.—*Authorised.*—£200,000, in 2,000 Ordinary shares of £100 each. *Issued.*—£100,000, in 1,000 shares, which have been subscribed. Up to December, 1896, £50,000 or £50 per share had been called; further calls of £25 per share are to be made during 1897, making £75 per share, which is the amount intended to be called up meantime.

Managing Agents.

THE ASSAM FRONTIER TEA COMPANY, LIMITED.

Incorporated 26th June, 1889.

CAPITAL.—£285,000, divided into 28,500 shares of £10 each, all of which are issued and fully paid. Of these, 14,250 are 6% Preference shares; the remaining 14,250 are Ordinary shares, entitled, after payment of the 6% on the Preferred shares, to a dividend up to 8% per annum, after which the surplus profits are to be divided equally between the holders of both classes of shares until the holders of the Preferred shares shall have received a total dividend of 10% for the year, after which the whole surplus profits are to be divided amongst the Ordinary shareholders.

Preference Shares are cumulative as to dividend. The dividend is paid on these half-yearly, viz., 31st December and 30th June.

DEBENTURES.—*First Issue.*—At the end of 1896 there were £60,000 6% "A" Debenture bonds of £100 each remaining, £40,000 having been redeemed out of profits. These Debentures are secured by a first mortgage on all the properties held by the Company previous to the second issue of Debentures, noticed underneath, and are redeemable at par by annual drawings, £5,000 per annum being set apart out of profits for that purpose. The Company reserves to itself the right of increasing this amount to £10,000 per annum.

A *Second Issue* of £10,000 6% "B" Debenture bonds of £100 each was made in the early part of 1896, in part payment for the Chota Hapjan Estate then purchased, and secured by a second Mortgage over the Company's original Estate, and a first Mortgage over the Chota Hapjan. They are redeemable at par by annual drawings as to £5,000 on 31st December, 1909, and £5,000 on 31st December, 1910.

A *Third Issue* of £12,500 6% "C" Debenture bonds of £100 each was made in May, 1896, in part payment for the Khobong and Laina Estates then purchased. These bonds are secured by a third Mortgage over the Company's original Estate, and a second Mortgage over the Chota Hapjan Estate and a first Mortgage over the Khobong and Laina Estates. They are redeemable at par, by annual drawings, as to £5,000 on 31st December, 1911, and £5,000 on 31st December, 1912, and as to £2,500 on 31st December, 1913.

Interest on Debentures is paid half-yearly, viz., 31st December and 30th June.

HISTORY.—This Company was originally formed with a Capital of £220,000 to acquire and further extend the Estates known as Talup, Hilika, Hokonguri and Dholla (formerly known as the “R.G.S.” Tea Estates) and Sookerating, situated in Upper Assam, all the Estates lying within a radius of 10 miles. The original Proprietors of these gardens accepted the whole of this Capital in part payment for the Properties. At the time the Company was formed there was an issue of £100,000 6% First Mortgage Debentures, which is referred to above as First Issue.

Up to December last extensions amounted to 503 acres, and paid for partly out of Revenue. During 1896 the Capital of the Company was increased to £285,000, and the Hapjan, Khobong and Laina Estates were purchased. The Hapjan Property (including £2,500 in cash handed over by the Vendors for future extensions) was paid for by the issue of 1,500 Ordinary and 1,500 Preference shares and the £10,000 “B” Debenture bonds. The Khobong and Laina Estates (including £1,500 in cash from the Vendors), by the issue of 1,750 Ordinary and 1,750 Preference shares and £12,500 “C” Debenture bonds.

SITUATION AND AREA.—According to most recent surveys the total area of the Company’s Properties under plant amounts to 5,773 acres, and it is intended to immediately increase this to 6,000 acres. The Estates are in Upper Assam.

RESULTS AND DIVIDENDS.—The following table shows the working results of the Company since its formation :—

Interest on debentures not reckoned in "cost column," nor deducted from total profit.

An interim dividend of 3% on the Preference shares has been paid for year 1896, and £5,000 debenture stock drawn and paid.

GENERAL.—The Company, being in possession of a large amount of land suitable for tea cultivation, is planting up annually a moderate quantity of the same. As the cost of these extensions is mostly paid for out of the Revenue account, the capital cost per acre of the cultivated area is diminishing each year.

ACCOUNTS are made up annually to 31st December, and usually rendered with Directors' report in or about the June following.

HISTORY.—The Company was formed in 1887 to purchase the then going concerns Attaree Khat, Paneery and Dhorum Juli, which at that time comprised some 7,200 acres, 760 of which were under tea cultivation. The price paid for these Estates amounted to £41,000. In 1889 Kasu Bheel Estate, adjoining the Paneery Estate, was purchased for £14,500 in paid up shares of the Company, and in 1890 it was decided to purchase the Bhergaon Estate, within 7 miles of Attaree Khat, for £3,500, viz., £2,000 in cash and £1,500 in shares; the cash was paid out of the profits of 1889 and 1890. In January, 1897, further Capital was issued for the purpose of extending and developing the properties. This issue is included in above statement of Capital.

SITUATION AND AREA.—The Properties are in the Mungledye Durrung District of Assam and comprise 9,805 acres of land, the majority held on fee simple. There are 1,962 acres in cultivation, 1,528 of which are in bearing.

RESULTS AND DIVIDENDS.—The following table gives the workings of the Company since its formation :—

1, GREAT WINCHESTER STREET, LONDON, E.C.

HISTORY.—This Company was formed in 1883 to take over, as a going concern, the property known as the Balijan Estate. There were at the time of purchase some 376 acres under cultivation, a large proportion of which was young tea.

SITUATION AND AREA.—The property is in the Debrooghur District of Assam. Since the formation of the Company extensions have been made, and, according to the last report, the amount of land now under tea totals some 625 acres, nearly all of which is in full bearing. The Estate comprises a total area of some 1,056 acres of land.

RESULTS AND DIVIDENDS.—The following table shows the workings of the Company during the last six years:—

Year	Acres in bearing.	Crop sale weight. lbs.	Av. lbs. per acre.	Av. cost per lb.	Av. per lb. realised.	Total Profit from all sources.	Dividend.	Remarks.

The 1890 and 1892 crops were sold partly in London and partly in Calcutta. The crops of 1894 and 1895 were sold in Calcutta, and cost of freight to London and home expenses have been estimated for in the above calculations.

An *ad interim* dividend of 5% was paid on 9th November, 1896.

During the period embraced in the above table some large extensions were made, which were all debited against Revenue account, and are included in the column "Average cost per lb.;" this has had the effect of considerably reducing the capital cost per acre.

ACCOUNTS are made up annually to 31st December, and submitted, with the Directors' report, in the March or April following, when the final dividend is announced.

HISTORY.—This Company was formed with an issued Capital of £27,070 to take over as from the 1st January, 1895, the properties at that time belonging to the Bargang and Kettela Tea Companies, registered in India. The Estates were going concerns. Towards the middle of 1896 it was decided to issue £2,930 additional Capital, in order to provide for the outlay incurred on account of new extensions that had been already made, and for the cost of further developments.

SITUATION AND AREA.—The Estates are in the Durrung District of Assam. At the beginning of January, 1896, the Company held 793 acres planted up, of which 670 were four years old and upwards.

RESULTS AND DIVIDEND.—For the season 1895 a crop of 275,875 lbs. was packed at an average gross cost of 8.50d. per lb. This was disposed of at an average price of 9½d. per lb., resulting in a net profit of £1,625, from which a dividend of 6% was paid on both classes of shares. A dividend of 3% has been paid on the Preference shares for the half-year ending 31st December, 1896.

HISTORY.—The prospectus was issued in March, 1891, and stated that the Company was formed to acquire and work the “Tezporc Old Concern,” which was at that time in full working order. The names of the properties included in this concern were Addabari and Balipara Estates. Part of the lands are held under fee simple tenure and the rest under renewing leases direct from Government. Previous to the 1st March, 1896, £21,000 of Debentures were current, and these, having matured at that date, were paid off as to £6,000 in cash and £15,000 by the issue in their stead of the Preference shares above mentioned. The ordinary share capital of the Company was at the same time increased by the allotment at par of 323 shares at £10 each, thus completing the issue of ordinary capital originally contemplated.

AREA.—The estates comprise a total area of 4,963 acres, of which 1,100 are under tea cultivation, and about 900 are in bearing. Since the formation of the Company 238 acres (included in the above figures) were planted up out of Revenue.

HISTORY.—This Company was formed in 1894 to acquire certain Government Leasehold Grants of Land in the Western Dooars District of Bengal, covering an area of 9,000 acres, or thereabouts, at a price of £1 per acre. The land is situated about 30 miles from the Cooch Behar States Railway Terminus. It was intended in the first place to plant up with tea some 2,000 acres, the estimated cost of the same being £44,500, including buildings and machinery. In the Directors' first report and statement of accounts, which covered a period of 15 months, viz., from the commencement of the Company to 31st December, 1895, it was stated that the expenditure had amounted to £15,491 and some 500 acres had been planted. A further 700 acres were planted in 1896.

DIVIDENDS.—As the plant cannot be producing leaf for manufacture for another two or three years, no dividend can be expected for the present.

ACCOUNTS will be made up annually to the 31st of December, and presented together with the Directors' Report about the April following.

HISTORY.—The Company was originally formed in 1864, with a Capital of £250,000, in fully paid shares of £20 each. In 1867 £25,000 10% Debentures were authorised, and £11,836 issued for the purpose of working the Company, the whole of the original Capital having been sunk or lost. In 1891 the Sildoobie and Roseabell Estates were disposed of, the amount received in payment being used for extensions. In 1892 the Capital was reduced to £60,825 by altering the denomination of the £20 shares into £5. In order to do away with the remaining £11,136 Debenture Mortgage on the Property, it was

decided in 1895 to increase the Capital by the creation of 4,000 5% cumulative Preference shares but only 3,300 were issued, which was sufficient to redeem the Debentures and provide the stipulated premium of 50%, arranged at the time of issue of the Stock in 1867, when Tea Properties were at a very low ebb. This premium was to be paid off out of profits during the three following years. The Properties are held partly under leasehold tenure, but principally under "fee simple" tenure.

SITUATION AND AREA.—The Company owns—*In Assam*, the Sessa, Mankotta, and Rhea Estates, comprising 2,442 acres, nearly all of which is held on fee simple tenure; of this, 406 acres are under tea cultivation.

In Cachar—Five Estates, the principal ones being: Dwarbund, Kharspore and Urrunabund, comprising 4,947 acres, about 2,000 of which are leasehold, and the balance held on fee simple tenure. The amount under plant is 1,283 acres.

RESULTS & DIVIDENDS.—The following table shows the workings of the Company during the last six years.

THE BUDLA BETA TEA COMPANY, LIMITED.

Incorporated 13th November, 1894.

CAPITAL.—£45,000 in 4,500 shares of £10 each all of which are fully paid. 3,000 shares were issued to the original proprietors of the Budla Beta garden and the remainder were subsequently issued to the original proprietors of the Kanjikoah garden in full payment for the estates acquired.

DEBENTURES.—£10,000 6% Debentures of £100 each. These are secured by a first mortgage over the whole of the Company's property (present and future) in favour of the trustees, Frederick Reinwald Bullock, Esq., and Robert Gordon Shaw, Esq., and will be redeemable after five years from the date of issue, at par, at the rate of not less than 10 debentures each year. The Debentures to be paid off will be decided by drawings. The Company reserves to itself the right to pay off any larger number of Debentures after the first five years from date of issue on giving six months notice by advertisement in *The Times*.

Interest on Debentures is paid half-yearly, viz., in June and December.

MORTGAGE.—The Kanjikoah property was acquired as above, subject to a mortgage of £5000 at 6% per annum interest.

HISTORY.—The Company was formed at the end of 1894, with a Capital of £30,000, to acquire, work, extend and develop, as from 1st January, 1895, the Budla Beta Tea gardens situated in the Luckimpore district of Assam. At the time of purchase the estate was a going concern and amply provided with suitable buildings, machinery and labour. It is situated close to one of the stations on the Assam railway. The

Debentures were issued soon after the Company was formed to take advantage of an opportunity of acquiring two fee-simple grants of land, adjacent to the Budla Beta estates, aggregating upwards of 3,000 acres, and to extend the cultivation of the Company's estate up to 1,000 acres. In the event of further sums being required to complete these proposed extensions the same are to be provided out of the profits of the Company. In October, 1896, the Capital was increased from £30,000 to £45,000, in order to purchase, for 1,500 shares, the Kanjikoah estate.

AREA.—The estates comprise an area of about 4,694 acres, of which 1,204 are under tea.

RESULTS AND DIVIDENDS.—During 1895, the first year of the Company's workings and before the acquisition of the Kanjikoah properties, a crop of 124,558 lbs. of tea was produced, which sold at an average of nearly 1s. 9d. per lb. This resulted in a net profit of £2,516, leaving £2,090 after deducting interest on Debentures and income tax; this was distributed as follows:—£1,500 in payment of a dividend of 5%, and £590 carried forward.

ACCOUNTS are made up annually to the 31st December, and are issued together with the Directors' Report about the June following.

HISTORY.—The prospectus was issued 17th October, 1895, and stated that the Company was formed to purchase as from 1st January of that year, as going concerns, the Properties in Cachar belonging to the Cachar Company, Limited, and in the Dooars belonging to the Matelli Tea Company, Limited; this latter Company was at the time registered in India. The price paid for the Properties was £51,000 for the Cachar division, and £86,000 for the Matelli, totalling £137,000, thus leaving, out of the amount issued, £16,000 for working Capital and cost of proposed extensions. The Vendor accepted shares, in equal proportions, to the value of £51,000 in part payment. The Cachar Property was known as the Silcoorie Estate. When the Company was formed, it was intended to extend the cultivated area in the Cachar district by another 1,000 acres, this new planting being called the Polai division, the land being previously included in Silcoorie Estate.

AREA.—The Company holds in Cachar some 15,296 acres, of which 2,529 acres are under plant, 2,074 being in bearing. The Dooars Property comprises 2,500 acres, of which 1,351 are under tea, 1,256 being in bearing.

RESULTS AND DIVIDENDS, 1895.—On Silcoorie a crop of 612,320 lbs. of tea was produced, and sold in Calcutta at a profit equivalent to £4,846, whilst on the Matelli Garden 761,440 lbs. of tea were produced, and likewise sold in Calcutta for a profit equivalent to £9,655 at an exchange of 1s 2d per Rupee; the total profits on the two concerns, adding transfer fees, &c., being £14,508; this sum included profit on tea seed sold. Out of this, preliminary expenses of the Company, Directors' remuneration, office expenses, income tax, &c., totalling about £2,500, were paid, leaving a balance of £11,017, out of which dividends of 6% on the Preference and 8% on the Ordinary shares were paid, the balance £1,460 being carried forward.

HISTORY.—This Company was formed in 1880 for the purpose of amalgamating and working as one concern nine estates, which were at that time cultivated to the extent of 2,474 acres ; the principal properties in this amalgamation were the Ballacherra, Narencherra, Sonacherra, Panicherra and Heroncherra. Extensions were proceeded with during the next few years, but portions of the Estates were abandoned, as they were not considered to be yielding sufficient leaf to pay for cultivation. In 1894 it was decided to allow some 500 acres to go out of cultivation for the same reason, and to centralise the manufacture by working four of the Estates as two.

SITUATION AND AREA.—The Estates are situated in the Cachar District of Assam, and according to the last report the plucking area is returned at 1,763 acres.

HISTORY.—The Company was originally formed to take over, work and extend, as from the 1st December, 1881, certain going concerns in Assam, comprising some 560 acres under cultivation. The paid-up Capital at that time was £36,140. Extensions were immediately taken in hand, and by 1889 the cultivated area amounted to about 850 acres, an increase of about 50% since the formation of the Company, all paid for out of Revenue. In 1893 the Company was enlarged so as to absorb the Nonoi Tea Company, as from the 1st

December, 1892, and the Capital was increased to £66,000 for this object.

SITUATION AND AREA.—The Estates are situated in the Dibrugarh and Nowgong Districts of Assam, and some 1,929 acres are under tea cultivation, nearly all in bearing.

RESULTS AND DIVIDENDS.—The following table shows the workings of the Company for the last three years :—

Year ending 30th Nov.	Crop, Gross Weight. lbs.	Average cost per lb.	Average per lb. realised.	Total Profit from all sources.	Dividend.		Remarks.
					Pref.	Ord.	
1893	912,595	7·05d.	8·50d.	£5,518	7%	8%	£1,000 to Reserve
1894	884,307	7·87d.	10·55d.	£9,878	7	10	£4,000 to Reserve
1895	932,960	7·22d.	8·44d.	£4,832	7	8	

The above calculations are made on the gross weight of the crops.

Ad interim dividends of 3½% on both classes of shares have been paid on account of 1896 workings.

GENERAL.—It has been the policy of the Company to gradually increase the area under cultivation by planting out some few acres as occasion might present itself. The most recent plantings have been made on the Nonoi Division, comprising some 110 acres, during the last three years. When the Company was originally formed the Capital cost per acre under cultivation amounted to about £64; it now stands at £34.

ACCOUNTS are made up to the 30th November in each year, and generally issued in the March or April following.

HISTORY.—The Prospectus was dated 26th June, 1896, and stated that this Company was formed to take over as going concerns and to amalgamate, as from the 30th November, 1895, the Estates in India and Ceylon then belonging to The North Sylhet Tea Company, The South Sylhet Tea Company and the Estates of The North Travancore Land Planting and Agricultural Society, Limited.

These Companies had since their formation in 1882 been worked under the same proprietary, as private Companies. The price paid to the Vendors for the properties was £1,600,000 payable as to 33,333 *1st Preference* shares, 13,333 *2nd Preference* shares, and 13,333 *Ordinary* shares and the balance in cash. The Company owns a considerable quantity of uncultivated land, and it is intended to rapidly develop and bring under cultivation a large portion of the same. The cultivation of coffee on some of the Travancore lands is to receive consideration.

SITUATION AND AREA.—The Estates comprise an area estimated at 180,000 acres situated in Assam, Sylhet, The Dooars, Darjeeling, The North Travancore Hills and Ceylon, of which, on 30th November, 1895, 21,310 were planted with tea in bearing, and 5,439 with young tea, coffee, cocoa, and cocoa-nuts. Since that date 4,371 have been cleared and are in course of planting, so that the whole area under cultivation at the time of the formation of the Company was 31,120 acres.

PAST RESULTS.—The average profits made by the concerns acquired during the last four years amounted to £93,976, and at this time a large area of the cultivated land was either too young to yield crop or was only in partial bearing.

GENERAL.—It is intended that the uncalled Capital on the Ordinary shares shall be used almost exclusively for the development of the Company's land and young Estates.

ACCOUNTS.—None yet issued.

HISTORY.—The prospectus was circulated on 14th October, 1885, and stated that the Company was formed to amalgamate and carry on the four going concerns—Bamandanga, Tondoo, Ghatia and Nagrakatta, held under leases from Government in perpetuity, comprising an area of 8,000 acres, 2,000 of which were under cultivation. The nominal Capital of the Company was £150,000, of which £106,000 was at that time issued and fully subscribed. The purchase price of the four concerns was £98,800, of which £35,330 was taken in the shares of the Company. Extensions on a large scale were immediately taken in hand. In 1886 the Indong Estate was purchased, comprising some 2,200 acres, of which 400 were under tea plant. In 1887 the Capital of the Company was increased by the creation of 3,500 Preference shares. In 1888 the balance of the Ordinary shares was subscribed, making the total amount of that class issued £150,000, at which it still remains. The Sukanbari Estate of about 800 acres, of which 200 were planted, was purchased for £2,956; this estate adjoins Nagrakatta. The surplus profits, after payment of dividends, of the year 1889, including the balance of the previous year, amounted to £5,474, and with this the Reserve Fund was founded for the purpose of equalising dividends. In 1892 the Capital of the Company was increased to its present amount, £245,000, by the creation of 2,000 additional Ordinary shares and 4,564 Preference shares. These latter shares were issued in the May of that year at a premium of £2 per share; this premium, less expenses of issue, amounted to £8,543, and was carried to Reserve Fund. The proceeds of the issue, together with calls which were made on the Ordinary shares, some of which were not at the time fully paid, were used to purchase the Bhogotpore Estate

at a price of £61,630. This Estate comprised 5,500 acres, of which 1,080 acres were under tea. The Grassmore Division of 800 acres was purchased in 1893.

SITUATION AND AREA.—The Properties are situated in the Western Dooars District, Bengal, and comprise some 18,400 acres, worked in eight divisions. There are in all 6,405 acres under tea, divided as follows:—Bamandanga 1,010 acres, Tondoo 600 acres, Ghatia 450 acres, Nagrakatta 972 acres, Indong 895 acres, Bhogotpore 1,070 acres, Hilla 658 acres, Grassmore 750 acres.

RESULTS AND DIVIDENDS.—The following table gives the working results of the Company since its formation:—

† And bonus of 2½%.

Ad interim dividends of 2½% on the Ordinary and 3½% on the Preference shares have been paid on account of the 1896 workings.

GENERAL.—A feature of the working of this Company is the large amount of land that has been put under cultivation year by year since its formation. The Directors have charged a large portion of the cost of making these extensions and maintaining young tea against Revenue, and as a result the average Capital cost per cultivated acre stands at a very reasonable figure.

ACCOUNTS are made up annually to the 31st December, and issued, with Directors' report, in the May following, when the final dividend on the Ordinary shares is declared.

HISTORY.—The prospectus was issued in February, 1877, and stated that the Company was formed to acquire, extend, and work the then going concerns known as the Doom Dooma and Fort Tea Estates, held on fee simple under grants from Government, and comprising 5,000 acres of land, of which 1,142 were cultivated. Extensions were immediately taken in hand, and by the end of 1879, 150 acres had been added. In that year the Company acquired the Tippook Garden, and the issued Capital was increased by 1,350 shares, and a small issue of Debentures was made. Another small estate was purchased in 1885. In 1888 the Tippook Estate was sold for £15,000, whilst in 1891 Samdang was purchased for £9,000, and the Capital of the Company was again increased by £14,500 in order to pay for the same and to provide an increase of working Capital. In December, 1891, the Messai Estate was purchased for £18,944, and the Capital of the Company was then increased by the issue of 1,940 shares. The existing £10,000 of Debentures were raised

in 1893 in order to provide further working Capital and in connection with the purchase of the Pohukatta Estate. In 1894, the nominal Capital of the Company was increased to £200,000, and in 1895 £15,000 was issued.

SITUATION AND AREA.—These Properties are in the Dibrugarh District of Assam, and include some 8,718 acres, nearly all of which is held on fee simple tenure ; of these about 3,191 acres are planted.

RESULTS AND DIVIDENDS.—The following table shows the workings of the Company for the past ten years.

HISTORY.—The Prospectus was issued on the 12th October, 1895, and therein it was stated that the Company was formed to amalgamate and take over as going concerns the following Properties :—

The Estates of The Doolabcherra Tea Company, Limited (Sylhet), as from 30th November, 1894 ; The Estates of the Mookhamcherra Tea Company, Limited (Sylhet), as from 30th November, 1894 ; The Estates of The Mahaousa Tea Company, Limited (Ceylon), as from 31st December, 1894 ; The Blackwater Estate (Ceylon), as from the 30th June, 1895, also The Hapugastenne and The Walawodowa Estates, both in Ceylon.

The price paid for these properties was £165,000, partly in cash and partly in shares of the Company, the remaining £5,000 of Capital issued being reserved for extensions.

AREA.—The properties comprise 12,660 acres of land, of which about 3,630 acres were planted at the time of the formation of the Company. Of the planted area 2,500 acres are in India, 1,130 are in Ceylon. The reserves of uncultivated land are principally in Ceylon.

PAST RESULTS.—It is stated in the Prospectus that, although a considerable area of cultivated land was either too young to yield crop or was only in partial bearing, the average profits made by the concerns for the 3 previous years had amounted to £9,874 19s. 5d., the profit for the last year alone amounting to £12,586 7s. 6d.

For the year 1896, *ad interim* dividends of 3% have been paid on both classes of shares,

ACCOUNTS are made up annually to 30th November. None yet issued.

HISTORY.—The Company was formed to acquire and combine under

one management the following going Tea concerns, which, excepting the Ceylon Properties, were taken over as from the 1st January, 1896 :—

1. IN ASSAM.—The properties of the Borjuli and Dapoota Tea Companies.
2. IN THE DOOARS.—The properties of the Good Hope and *Kumlai Tea Companies, and the Haiha Patha and Dangua Jhar Estates.
3. IN CEYLON.—The Lebanon Group of Tea Gardens, and the Knuckles Group.

AREA.—The Assam properties comprise a total area of 9,880 acres, of which 4,207 are under tea, 3,131 being mature and 1,076 newly planted.

The property in the Dooars District embraces 5,421 acres, of which 1,921 are under tea, 1,711 being in bearing. Of the land not planted 2,500 acres are considered to be good land for tea cultivation.

The Ceylon Estates comprise 2,461 acres ranging from 3,000 to 4,500 feet above sea level. They all adjoin and form an unbroken expanse of tea measuring 1,440 acres.

PURCHASE PRICE.—The price paid for the above properties was £418,000 of which £346,280 was in cash, £4,000 in fully paid Preference shares and £67,720 in fully paid Ordinary shares.

PAST RESULTS.—The following particulars are extracted from the Prospectus :—

“The total nett profits from the combined properties in Assam, Dooars and Ceylon, amounted in the two years 1894-5 and 1895-6 to £64,712, or £32,356 per annum. There are 1,332 acres of young tea coming into bearing.”

DIVIDENDS.—*Ad interim* dividends of 2½% were paid in January, 1897, on both classes of shares.

GENERAL.—The average annual outturn for the past two years has been 3,246,514 lbs. It is intended to make use of the large reserve of land, which may be suitable for planting, by regular but moderate extensions ; for this object, £20,000 has been provided in the issued Capital of the Company. The Capital price of the area under tea works out at £55 4s 8d per acre.

HISTORY.—This Company was originally formed in 1878 to purchase the Seleng Tea Estate. Shortly afterwards the Borsillah and Namtee Properties were acquired. In 1885 the Laojan and Naganijan Estates were acquired, new Capital being issued in 1886 in payment for the same. The amount of issued Capital at that date was £55,000, at which it remained until 1891. In 1889 some then existing Debentures were paid off out of profits. In 1891 the Sotai Estate was purchased, whilst in the following year the Mogro Estate was also acquired, the issued Capital then standing at £66,000, at which it remained until 1895, when it was raised to its present amount, in order to acquire the Boisah Habi Property.

SITUATION AND AREA.—All the Estates are situated in the Sibsagor and Jorhât Districts of Assam. There are now some 2,916 acres under cultivation, of which 2,558 are in full bearing.

RESULTS AND DIVIDENDS.—The following table shows the workings of the Company for the last six years :—

HISTORY.—This Company was formed in 1882, with a paid-up Capital of £30,000, to purchase the properties of a then existing Company of the same name, registered in Calcutta. Since that date the Capital has been gradually increased, principally for the purchase of other important properties. The last alteration was made in 1894, when the Capital was increased by the creation of the Preference shares, 5,000 of which were at that time issued. The properties are held partly under "leasehold tenure," but principally under "fee simple tenure." This Company is remarkable on account of the regularity of its dividends, which have remained at 10% for the last twelve years.

SITUATION AND AREA.—The Estates are situated in the Dibrugarh and North Lukhimpur Districts of Assam, and comprise an area of 35,142 acres, of which 7,351 are under tea cultivation.

RESULTS AND DIVIDENDS.—The following table shows the progress of the Company during the last ten years:—

£4,432 carried forward from 1895 accounts.

HISTORY.—This Company was formed in 1859, with a Capital of £60,000, to purchase the four going concerns—Cinnamara, Oa Ting, Koliabur and the Numali Ghur Tea Estates. The combined properties included at that time some 731 acres under cultivation. Shortly after the Company was formed it was decided to acquire large tracts of land in the immediate vicinity of the estates; these amounted to 5,620 acres, giving the Company a total area of 8,539 acres. The Capital was increased in 1862 to £80,000 in order to pay for this new land and provide funds for extensions. For the latter reason the Capital was again increased to £100,000 in 1866, but only 500 of the new shares were issued, and these

at a premium of £30 each. The Premium Account above mentioned was thus created on the 488 shares subscribed at this price.

It is interesting to note that for the years 1863 and 1864 dividends of 36% and 34% respectively were paid, and that an average of 2s. 7¼d per lb. was obtained for the 1864 crop. Extensions on a fairly large scale were made each year until, in 1877, 3,506 acres were under plant. In 1875 the remaining uncalled Capital on the shares issued was called. In 1878 it was decided to issue the 512 shares remaining, and from that time the subscribed capital has been £100,000.

ACCOUNTS are made up annually to 31st December, and issued, together with Directors' report, in the July following.

HISTORY.—The prospectus was issued on the 7th December, 1894, and stated that the Company was formed for the purpose of acquiring the going concern called Meenglas Estate, and for cultivating and extending the same.

SITUATION AND AREA.—The Estate is situated in the Western Dooars, District of Julpigoorie, Bengal, and is within a few miles of one of the Stations on the Bengal Dooars Railway. It comprises about 3,500 acres of land held direct from Government. When the Company was floated, about 821 acres were under plant, the greater part being in full bearing. Of the unplanted area a large proportion is suitable for Tea, and it is intended to make small extensions annually when favourable opportunities occur.

RESULTS AND DIVIDEND.—During the year 1895, the first year of the Company's existence, the crop of tea packed amounted to 518,796 lbs., which was sold at an average price of 703d. per lb., resulting in a profit of £2,875, out of which a dividend of 6% was distributed.

An *ad interim* dividend of 3% on account of 1896 workings was paid in December.

HISTORY.—This Company was formed in 1884 with an authorised Capital of £40,000, of which £35,007 was issued with the object of purchasing and extending the then going concern known as the Moabund Estate, 528 acres being at that time planted up. Extensions on a fairly large scale were immediately taken in hand, and during the first ten years of the Company's existence the cultivated area was doubled. In 1892 it was decided to issue the balance of the unsubscribed Capital, in order to meet the cost of upkeep of the young tea and also to provide for outlay on further extensions. In the following year, the nominal Capital of the Company was increased by the creation of 9,500 Ordinary and 12,000 7% Preference shares, the former being allotted in part payment to the proprietor of the Gotoonga Estate which was then purchased for a sum of £18,500.

A large proportion of the surplus lands held by the Company being suitable for tea cultivation, it was decided towards the end of 1896 to increase the Capital of the Company in order to provide funds for opening out new gardens and for developments. The Company was therefore reconstructed early in this year (1897), the Capital being increased to its present amount. The shareholders in the new Company received two shares of the new Capital for each old share, whether Preference or Ordinary ; the balance of the new Ordinary shares was issued at 5s. premium. The Preference share dividend was reduced to 5%.

SITUATION AND AREA.—The estates are in the Sibsagor District of Assam and comprise an area of 7,139 acres, nearly all of which is held on fee simple ; of these 2,474 acres were planted previous to May, 1896, 1,670 acres being then four years old and over.

RESULTS AND DIVIDENDS.—The following table shows the workings of the Company for the last six seasons :—

HISTORY.—This Company was formed to take over, as going concerns, from the 1st January, 1895, and unite under one management, the Tea Estates belonging to the following then existing Tea Companies, viz. :—In Assam, those of the Singlo Tea Company, Limited, and of the Jaboka Tea Company, Limited; and in the Dooars, that of the Kisna Tea Company, Limited. All the Estates are held under leases (renewable in perpetuity under the Government regulations) direct from the Indian Government, with the exception of 458 acres held on a yearly tenure. As the Company owns a large quantity of uncultivated land suitable for tea, it has recently been decided to carry out regular but moderate extensions during the next few years, and a further issue of Capital has been made as stated above.

AREA.—According to the last report the Estates comprised :—

Singlo Division	...	9,072 acres,	of which	1,768 acres	were under Tea.
Jaboka Division	...	4,832	”	”	936 ” ” ”

HISTORY.—The Prospectus was dated 27th July, 1896, and stated that the Company was formed for the purpose of taking over, as going concerns, as from the 1st July of that year, the Venture, Arnichardi and Neddumpara Estates, and also from 1st September the Nagamally Estate, all situated in South Travancore, Southern India, and comprising a total area of about 2,304 acres, of which about 850 were under tea, 125 under coffee, and 6 under nutmegs. They stand at an average elevation of 1,100 ft. Nearly all the tea is in full bearing. The Nagamally, Arnichardi and Neddumpara Estates are freehold; Venture is held under lease at a nominal quit-rent from the Government, and is renewable at the option of the Company. No Debentures will be issued against the properties except with the assent of a majority of two-thirds

of the Preference shareholders. The purchase price of the Venture, Arnichardi and Neddumpara Estates was fixed at £26,000, payable as to £10,000 in Ordinary shares and £3,250 in Preference shares, and the balance, £12,750, in cash; the Company paid costs and charges incidental to its formation. The Nagamally Estate was subsequently bought for £4,000.

HISTORY.—The Prospectus was issued on the 29th January, 1895, and stated that the Company was formed to acquire, work, and further develop certain Tea Estates in Ceylon, viz., Uda Radella, Aberdeen, Calsay, Gleneagles, and Luccombe Group. Each of these properties was a going concern and equipped with a factory and machinery, except in the case of Gleneagles. The price paid for these Estates was £68,000. When the Company was floated 4,000 shares and 300 Debenture bonds were issued, and shortly afterwards a further issue of 1,000 shares and 60 Debenture bonds was made in order to purchase the Thornfield Estate.

SITUATION AND AREA.—The Uda Radella and Aberdeen Estates are situated in the Lower Dikoya District, the Calsay, Gleneagles and Thornfield Estates in the Dimbula District, and the Luccombe Group

partly in Maskeliya and partly in Dikoya. They comprise 2,851 acres, of which 2,365 are under tea, 2,239 being in bearing.

RESULTS AND DIVIDENDS :—

Year.	Acres in bearing.	Crop Sale Weight. lbs.	Average lbs. per acre.	Average cost per lb.	Average per lb. realised.	Net Profit.	Dividend.
1895	2,239	810,941	368	5·88d.	8·27d.	*£8,150	10%

* After payment of all charges excepting Debenture interest.

A small quantity of tea was sold in Ceylon, on which freight and home charges have been estimated for. There was also a very small quantity of coffee sold there, but not sufficient to materially alter the above figures.

An *ad interim* dividend of 5% has been paid on the 1896 workings.

The report for 1895 says that £794 spent on new tea clearings, building and machinery, was charged to Profit and Loss, in lieu of writing off an amount for depreciation of machinery and plant for the year, besides which a sum of £1,103, being the whole amount of preliminary expenses, was also debited to Profit and Loss Account. £120 was carried forward to 1896 account.

ACCOUNTS are made up annually to 31st December and issued, together with Directors' report, about the March following.

HISTORY.—This Company was originally formed under the title of The Oriental Bank Estates Company, Limited, and took over from the Oriental Bank Corporation, when in liquidation, a large part of its Estates in Ceylon and Mauritius. Since that time some of the estates have been disposed of. The name of the concern is now being altered to the above title. The Capital of the Oriental Bank Estates Company was divided into Preference and Ordinary shares, which, under resolutions of the Company, passed and confirmed in December, 1896, and January, 1897, were exchanged for the above £250,000 Stock.

SITUATION AND AREA.—The estates in Ceylon are situated in various districts, and comprised, in March, 1896, a total of 12,950 acres, of which 6,709 are under tea cultivation, 1,221 under cocoa, coffee, and cardamoms, and 5,020 Forest reserve, &c. Of the land under tea, 5,169 acres were then in bearing.

RESULTS AND DIVIDENDS.—The Debenture interest on both classes of Debentures has been regularly paid out of profits, and dividends on both the Preference and Ordinary shares above mentioned were paid at the rate of 7% and 5% respectively from 1886 to 1892. A dividend on the Preferred shares was again paid in 1894, and a dividend of 7% was paid on the Preferred shares in February, 1897, and the arrears of dividend on the Preferred shares were secured by Surplus Certificates

issued to holders of such part of the above £250,000 Stock as represents the Preferred shares. The Surplus Certificates are to be paid off, without interest, out of half the profits of the Company, after the holders of Stock have received 6% for the year. According to the accounts for the year ending 31st March, 1896, a crop of 1,649,577 lbs. of tea was produced, besides a quantity of cocoa, coffee and sugar. The tea sold at an average price of 8:56d. per lb., and a total profit from all sources of £23,655 was realised from the year's working.

ACCOUNTS are made up annually to the 31st March and issued in the July following.

THE ASSOCIATED TEA ESTATES OF CEYLON, LIMITED.

Formed July, 1896.

CAPITAL.—*Authorised*—£150,000 in 15,000 shares of £10 each, 8,000 of which are 6% Preference shares and 7,000 Ordinary shares.

Issued.—£110,000 in 6,000 Preference and 5,000 Ordinary shares, all of which are fully paid.

Preference shares are cumulative, and have priority as to Capital as well as Profits. The dividend on these will be paid half-yearly, viz., on the 31st March and 30th September.

OFFICIAL QUOTATION.—Ordinary shares Nos. 8,001 to 13,000 and Preference Nos. 1 to 6,000, quoted on London Stock Exchange.

The Directors' powers of borrowing are limited to £20,000 for the general business of the Company ; beyond that sum no Debentures or charges on the Company's properties can be created without the sanction of the Shareholders at a General Meeting.

HISTORY.—The Prospectus was dated 16th July, 1896, and stated that the Company was formed to take over as going concerns, and amalgamate under one management, the following properties in Ceylon, and to purchase further estates as opportunity might occur.

SITUATION AND AREA :—

Name of Estate.	District.	Acres under tea.			Forest Chena, etc.	Total.
		Full bearing.	4 years.	Under 4 years.		
Chesterford	Kelani Valley	278	15	266	250	809
Silver Kandy	Uda Pussellawa	210	—	20	54	284
Doragalla	Pussellawa	620	—	—	371	991
Horagoda	Kalutara	150	—	20	248	418
Madultenne	Kelani Valley	150	—	52	85	287
		1,408	15	358	1,008	2,789

It will be seen that about 20% of the area under plant is young tea, and will be shortly coming into bearing. The estates are distributed over high and low country, the properties ranging from an elevation of 450 ft. in the Kelani Valley, to 5,500 ft. above sea level in Uda Pussellawa. The price paid for the five estates was £103,720, leaving a balance of £6,280 out of the first issue for working Capital. All expenses in connection with the formation of the Company down to allotment were paid by the Vendors. It was estimated that the tea in full bearing produced 450 lbs. per acre.

DIVIDEND.—*Ad interim* dividends of 3% have been declared on both classes of shares.

ACCOUNTS.—None yet issued.

DIRECTORS' QUALIFICATION.—Shares of either class of the nominal value of £500.

VOTING POWER.—One vote for every share held.

The purchase consideration was £80,000, £10,000 of which was satisfied by the allotment of the Deferred shares noted above. The properties were acquired as from the 30th June, 1892. When the Company was floated £15,000 was provided for working Capital and for extensions. In 1895 a portion of the Moragalla Estate was sold and two small new gardens, one adjoining Goat Fell, and the other near the Carolina Group, were purchased and paid for out of funds which were then available.

SITUATION AND AREA.—The Estates are situated in various Districts, by which the holdings of the Company are averaged. They range from an elevation of 400 ft. (Udapolla Estate) to 6,000 ft. (Goat Fell Estate). They comprise a total area of 4,640 acres, of which 2,379 are planted, 1,562 being in bearing.

HISTORY.—This Company was formed in July, 1884, with an authorised Capital of £50,000, to purchase the New Peradeniya, Fetteresso, Andangodde, Kaludawella, Leaston, Owella, Rickarton and Strathisla Estates. A small amount of Debentures was also issued. In the following year the Capital was increased by £25,000, the whole of which, together with the remaining unissued original Capital, was immediately taken up, but not fully paid. This new Capital was created in order to provide for the purchase of the North Matale group and Alloowiharie and Dickeria Estates, and for extension and cultivation of the previously acquired properties. Until 1889 there was a liability against Mortgages over three of the Estates for £15,000, but in November of that year this was reduced to £12,000, since which date the whole of it has been gradually paid off. In 1890 the Capital was increased to £100,000 in order to provide further working Capital, and also to increase the Agency business of the Company by lending money on Mortgage security.

SITUATION AND AREA.—The Estates are situated in the Dikoya, Dolosbage, Hantane, Maskeliya and Matale Districts, at altitudes ranging from 1,200 ft. to 5,500 ft. They comprise a total area of 5,009 acres, of which 1,993 are under tea, and 1,531 under cocoa, coffee and coconuts. Of the land under tea 1,556 acres are in bearing.

GENERAL.—The average Capital cost per cultivated acre works out at £28 1s. 6d.

ACCOUNTS are made up annually to the 30th June, and submitted at the end of the following November or in December.

Interim dividends paid July-August, and final dividends, December-January.

HISTORY.—This Company was formed in 1886 with an issued Capital of £75,090 to acquire and work the Mariawatte, Dunedin, Dewalakande, and Sembawatte Estates, all of which were at that time going concerns, and comprised an area of 2,669 acres, of which 1,267 were in bearing. In the following year the Mudamana Estate of 507 acres was commenced; and in 1888 Tillyrie, Wallaha, Alton, and Scrubs Estates were purchased, as from the 1st January, 1889; these comprised a total area of 1,635 acres, of which 1,261 were under tea and 64 under coffee, the purchase consideration being satisfied by the issue of 4,550 fully paid up shares of the Company. In order to provide for the purchase and development of the East Holyrood, Lochiel, Rosita, Tanga-Kelly and Waverley Estates, comprising 2,314 acres, of which 1,247 were under tea and 67 coffee, it was decided in 1890 to increase the Capital of the Company to £300,000, as at present constituted, and to issue 3,000 Preference shares. Again in June, 1891, a further issue of 4,000 Preference shares was made at a premium of £1 10s. per share, to provide for the purchase of the West Holyrood, Ardallie and Yoxford Estates, comprising 1,092 acres of tea and 143 acres reserve, as well as for their development and that of the Company's property generally. Since then more Estates have been purchased, and one sold. The purchases included the Andigama, Mawatte, Jakwilla, and Sirangapathe cocoanut producing properties, acquired as an investment for part of the Reserve Fund.

SITUATION AND AREA.—The Estates are situated in various Districts, including Dimbula, Maskeliya, Kelani Valley, Bogawantalawa, and Newera Eliya, at altitudes varying from 500 ft. to 6,000 ft. above sea level; the holdings are principally situated in the Dimbula District. They comprise a total area of 12,694 acres, 8,417 of which were under tea and 1,917 under cocoanuts at 31st December, 1896.

HISTORY.—This Company was formed in 1891 with an issued Capital of £18,000 and Debentures £12,000, to acquire and work the going concern known as Wattegodde, an estate of 895 acres, 800 acres of which were planted. In May, 1895, it was decided to purchase for £40,000 the going concerns Tallagalla, Ellagalla, Hoonocotua and Hennewille Estates, totalling some 1,657 acres. £23,000 in Debentures and £18,000 in Preferred and Ordinary shares were issued in order to provide the necessary funds. The Company was then possessed of 2,550 acres, of which about 1,900 acres were under tea. In May, 1896, it was decided to purchase the Knutsford, Rutland and Warriagalla Estates, comprising 2,040 acres, for a sum of about £36,000, including expenses; this was raised by the issue of £13,000 Preference shares at 10% premium, £13,000 Ordinary shares at par, and £10,000 Debentures at 5% premium. The sum received as premium was carried to the credit of Factory and Extension Account. Extensions are now being carried out on a fairly large scale, and, according to the last report, some 150 acres had been

opened up during the year, the cost of which will be met from the Factory and Extension Account.

SITUATION AND AREA.—The following are the approximate particulars of all the Estates now held by the Company:—

HISTORY.—This Company was formed in 1887 to take over from the Liquidators of the CEYLON COMPANY, LIMITED, as from the 1st January, 1888, all the assets of that concern. The nominal and issued Capital was the same as at present, and there were £195,200 6% Debentures issued. For each £20 paid share in the Ceylon Company, Limited, there was allotted one £5 fully-paid share in the Eastern Produce Estates Company, Limited.

At the time the Estates were taken over there were about 5,600 acres under tea cultivation. Considerable extensions have been made each year, and at the present time the cultivated area amounts to 10,347 acres.

In 1895 arrangements were made for the substitution of £130,000 4½% Debentures for the balance unpaid of the original £195,000 6% Debentures, and the then existing restrictions as to a maximum dividend of 3% per annum on the Ordinary shares was replaced by a condition that at least £7,500 in each year out of profits was to be applied in the reduction of the Debenture debt, before the Ordinary shares received any dividend. This condition is to remain in force until such Debenture debt is reduced to a sum under £50,000.

In addition to tea producing, the Company has a large and profitable Agency business.

SITUATION AND AREA.—The Company owns 22 Estates, situated in different districts, at altitudes ranging up to 6,000 ft. They comprise a total area of 16,630 acres, of which, 10,347 are planted with tea, 678 with cocoa, 129 with coffee, and 125 with cardamoms and sundries, the balance of 5,351 acres being described as forest, grass, and uncultivated land. Of the area under tea, 9,500 acres are now yielding crops.

RESULTS AND DIVIDENDS.—The following table shows the progress made by the Company since its formation. It will be seen that Debentures to the amount of nearly £53,000 have been redeemed, and another £10,000 has been put aside for future redemptions. These amounts, together with £15,000 Reserve Fund created, make up a total of £78,000 out of profits not distributed as dividend to the Shareholders:—

HISTORY.—This Company was formed in 1886 with a Capital of £20,000, only part of which was issued, in order to purchase the Degalessa Estate and some adjoining lands, then nearly all virgin forest, and to convert the same into a tea plantation. At the time of purchase there were ten acres of old tea. The Vendors of the Degalessa Estate received £3,655 in payment. Tea planting was immediately proceeded with, and by the end of 1888, 500 acres were under cultivation. Debentures were authorised to provide for upkeep and extensions. In 1890 the Dover Estate and some land adjoining Degalessa were purchased. The following year the unallotted shares were subscribed at a premium of £1 per share. At the end of 1892 the Wereagalla Estate, comprising 294 acres, 230 of which were planted, was acquired for £8,250, and the following year the Parusella Estate was purchased for £5,250; this comprised 275 acres, 210 of which were planted. The Capital of the Company was then increased to its present amount, 1,000 shares being issued at a premium. Further Debentures have also been issued at various times. The Reserve Fund was founded on the Profits of 1891.

SITUATION AND AREA.—All the estates are situated in the Kelani Valley District, and comprise an area of 1,537 acres, of which 1,047 are in full bearing.

HISTORY.—This Company was formed on March 20th, 1885, by Debenture holders in the DIMBULA COFFEE COMPANY, LIMITED, OF CEYLON, which Company was then in an unfortunate position owing to failure of coffee crops. The arrangements made for taking over the properties of the old Company were as follows :—

Each Debenture holder had power to apply for "A" shares to the amount of 25% of his Debenture holding, and on exercising this right there were allotted to him in addition 75% fully paid "B" shares. The shareholders of the old Company received three fully paid "C" shares in the new Company for every four shares they held, on condition that they paid for one "A" share.

The satisfactory manner in which this arrangement has worked will be seen by the remarks under the heading "Results and Dividends." At the time the Company was formed, a part of the coffee had already been displaced by tea, and further extensions on a large scale were immediately taken in hand.

SITUATION AND AREA.—The Estate is situated in the Dimbula District, at an elevation ranging from 4,600 ft. to 5,800 ft. It comprises a total area of 3,125 acres, of which about 2,300 are planted, 2,193 acres being in bearing.

RESULTS AND DIVIDENDS.—The dividend on the "A" shares has always been paid; the accumulated dividends on the "B" shares were fully paid off in 1895, and in 1896 the following dividends were declared: 16% on "A," 16% on "B," and 14% on "C."

ACCOUNTS are made up annually to 30th June, and submitted together with the Directors' Report about the October following.

HISTORY.—This Company was formed in 1891 with an authorised Capital of £50,000, 2,500 shares being at that time issued, in order to purchase, as from the 1st March of that year, the St. Leonards Estate, then a going concern, partly under tea and partly under coffee. Of this issue 700 shares, fully paid, went to the Vendor, the balance of the shares having only £6 paid thereon. The Eskdale and Liddesdale Estates were purchased as from the 1st January, 1892, and a further 1,250 shares were issued, 1,000 of which accredited as fully paid going to the Vendors. The Gouravilla Estate was also purchased, and shortly afterwards the Gordon Estate. Another 1,250 shares were then issued. On the 4th May, 1893, the Capital of the Company was increased to £100,000. The Upper Cruden Estate, adjoining Gouravilla, and the Tulloes Estate, were purchased in 1894. Since then 3,200 shares have been issued.

SITUATION AND AREA.—All the Estates are situated at high altitudes. The following are the particulars of area, &c. :—

HISTORY.—This Company was formed in January, 1893, with a fully subscribed Capital of £50,000, to acquire and amalgamate the two going concerns known as Sunnycroft and Pambagama Estates, £6,000 Debentures were also issued at that time. In 1895 the Capital was increased to £70,000 by the creation of the 2,000 Preference shares, of which 500 were issued together with £4,000 Debentures. This issue was made to provide for permanent improvements and further extensions.

SITUATION AND AREA.—The Estates are situated in the Kelani District of Ceylon, and are within some 40 or 50 miles of Colombo. They comprise a total area of 2,739 acres, of which are planted 866 on Sunnycroft and 467 on Pambagama, making a total of 1,333 acres, 972 of which are in full bearing. Extensions on a fairly large scale have been made during the last few years on the Sunnycroft division.
